Company Profile

Quality

Meets Innovation

Welcome to VQT, a forward-thinking company built to redefine the standards of quality management. We combine decades of expertise with the power of advanced technology to deliver innovative, transparent, and efficient solutions. At VQT, we believe in true partnership — putting our clients' long-term success at the heart of everything we do.

ABOUT US

VQT is a newly established and ambitious company with a clear vision: to redefine the standards of the quality management industry. By being the first to seamlessly integrate advanced technology into quality systems, we are pioneering a new era of efficiency, transparency, and innovation. Our foundation is built on the solid expertise of our founders and team, who bring decades of combined experience in quality systems and cutting-edge technologies. This unique blend allows us to deliver exceptional, sustainable results.

At VQT, we embrace a “true partnership” philosophy, prioritizing our clients’ long-term success above all. We are not only providing services — we are shaping the future of quality management.

Vision & Mission

OUR VISION

"To be the most trusted and human-centered partner in quality and compliance—where excellence meets integrity, and every connection builds lasting confidence."

OUR MISSION

"Our mission is to deliver precise inspection and ISO solutions that uphold the highest standards of quality, guided by integrity, empowered by clear and honest communication"

OUR VALUES

Forward Together – We embrace growth, innovation, and continuous improvement.

WHAT WE OFFER

At VQT, we provide tailored solutions that empower organizations to achieve international standards of quality and compliance. Our services include social compliance consultation, helping businesses align with ethical and legal frameworks, and certification support, guiding clients through accreditation processes with efficiency, transparency, and innovation. We combine deep expertise with advanced technology to deliver measurable results and long-term value

OUR BRANCH IN KSA

SAAC

Medical Devices

(ISO 13485)

We provide specialized services aligned with the ISO 13485 standard for medical devices, focusing on quality management, regulatory compliance, and operational consistency. Our expertise ensures the implementation and maintenance of effective quality systems that meet international requirements, covering areas such as documentation, risk management, validation, and internal auditing. These services are designed to help medical device manufacturers achieve certification readiness, maintain compliance, and ensure product safety and performance throughout the entire lifecycle.

TRUST AT EACH BYTE

SUSTAINABILITY

Sustainability & Readiness in Brief

- ▶ **GHG & Baseline Assessment** – Quantify your carbon footprint across Scopes 1, 2, and 3. We establish reliable baselines for energy, emissions, and resource use, creating a foundation for meaningful decarbonization and progress tracking.
- Strategy & Roadmap** – Define goals, actions, and realistic timelines for improvement.
- Together, we design measurable sustainability objectives linked to your operations, budgets, and reporting cycles – ensuring business alignment and accountability.

SUSTAINABILITY

Sustainability & Readiness in Brief

- ▶ **Implementation & Data Controls** – Embed sustainability into daily operations.

We create standard procedures, data-collection templates, and verification systems so that your sustainability information is consistent, traceable, and audit-ready.

Reporting & Assurance Readiness – Communicate results with integrity and compliance.

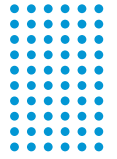

We prepare disclosures aligned with GRI, CSRD, and IFRS S1/S2, supported by clear evidence and documentation to meet both stakeholder expectations and assurance requirements.

HEALTH CARE

QUALITY CONSULTATION

HEALTHCARE ACCREDITATION

Healthcare accreditation is an official recognition that a healthcare facility – such as a hospital, medical center, or clinic – meets defined standards of quality and patient safety.

In Saudi Arabia, this process is carried out by an independent national body called the Saudi Central Board for Accreditation of Healthcare Institutions (CBAHI).

CBAHI conducts structured assessments that include document reviews, staff interviews, on-site visits, and tracer evaluations to ensure that healthcare organizations follow safe, effective, and organized practices

TRUST AT EACH BYTE

Get certified by GAHAR, delivering specialized Healthcare Quality Consultation services that support accreditation readiness, strengthen clinical governance frameworks, and drive sustainable quality improvement across healthcare organizations.

We are committed to applying best practices based on national and international standards to achieve organizational excellence.

Our mission is to empower healthcare teams to build a strong culture of quality and patient safety while ensuring the sustainability of operational excellence.

1

GREATER TRUST AND CREDIBILITY

Accreditation Tells Patients And The Public: “This Facility Is Safe, Orgnized,And Committed To Quality Care.” ItBuilds Confidence Not Only Among Patients But Also With Insurance Companies

2

ORGANIZED AND TRANSPARENT OPERATIONS

Every department operates under clear policies and procedures, ensuring consistency and accountability. Workflows are standardized – no improvisation, no confusion – just professional structure and control.

3

PATIENT SAFETY COMES FIRST

CBAHI standards focus heavily on reducing medical errors, improving medication management, infection prevention, and overall patient safety. That means fewer incidents... and safer care

4

CONTINUOUS STAFF DEVELOPMENT

Accreditation encourages hospitals to provide ongoing training for all staff – from physicians and nurses to administrative teams – to keep them updated with best practices and new healthcare standards.

5

A REQUIREMENT FOR LICENSING AND RENEWAL

In Saudi Arabia, most health-care facilities must obtain CBAHI accreditation to renew their operating license from the Ministry of Health. So accreditation is not a luxury – it’s a regulatory necessity for continuity and compliance.

6

STRONGER REPUTATION AND COMPETITIVE ADVANTAGE

Accredited facilities stand out in the market with stronger reputations, better credibility, and higher chances to secure government or insurance contracts. Accreditation becomes a true mark of trust

WHAT IS ACCREDITATION ?

Planetree

Accreditation is your seal of trust and quality.

It means an independent body has verified your compliance with international standards for safety, quality, and performance.

In short – it's your proof that your system works right and is globally recognized.

Examples:

- ... Johns Hopkins Aramco (KSA) – Planetree Gold |
- ... Hamad Medical Corp. (Qatar) – Planetree Accredited |
- ... Al-Hammadi Hospital (KSA) – CBAHI |
- ... Juhayna (Egypt) – ISO 22000 | Orascom – ISO 45001

WHAT IS **READINESS** ?

Readiness is the pre-accreditation stage — the journey of preparation.

We assess gaps, align policies, train staff, and run mock audits so you're fully ready for the official visit.

At VQT, we guide you step-by-step until your organization earns the certificate.

WHY IS IT **MATTER** ?

Trust & Reputation .. Builds confidence with clients and authorities.

Continuous Improvement .. Drives better performance and results.

Professional Teams .. Enhances skills and awareness.

More Opportunities .. Opens doors to contracts and partnerships.

GET YOUR HEALTHCARE FACILITY READY FOR GLOBAL RECOGNITION

Joint Commission International (JCI) accreditation is a global mark of excellence that proves your facility delivers safe, high-quality, and patient-centered care.

At VQT, we simplify the journey through our JCI Readiness & Preparation Program, helping healthcare organizations close gaps, align policies, and build a sustainable culture of quality and safety.

WHAT WE OFFER ?

- ... Gap Assessment – Identify areas needing improvement
- ... Policy & Procedure Alignment – Standardize operations
- ... Staff Training – Build awareness of patient safety culture
- ... Mock Surveys – Ensure full readiness for the official visit

WHAT YOU GAIN ?

- ... International recognition and trust
- ... Stronger brand reputation and partnerships
- ... Improved processes, teamwork, and compliance
